

VENSELLS^{CL}

THE "PLUG AND PLAY" CARD SYSTEM IN CLOSED LOOP

Vensells CL (Close-Loop-Mifare) is the directly billable "in-house card system" with complete, automated billing - assuming the use of a Vencube in the vending machine.

Vensells CL expands the overall Vensolutions package for in-house operations, such as staff catering, for companies that want their own, less complicated solution.

There are two different service packages to choose from, for which different RFID-transponders can be used for cashless payment.

The read-write unit offers everything you would expect from an efficient solution. In the Vensells CL Premium version, additional functions can be used with the help of a tabletop unit and the Ventool Premium software extension.

VENSELLS CL in Detail

Vensells CL

This read-write unit (RWU) offers you the following functions:

- + vending machine sales
- + cash top-up at the vending machine
- + cash booking at the S+M valuer
- + deposit booking bottle / cup
- + a purse
- + card subsidy in euros/ cents/per cent
- + use of over-the-counter cards
- + automated billing
- + Time-controlled subsidies (quantity or amount)

Vensells CL Premium

With the additional desktop device (editor) for connection to the PC and the Ventool Premium software, there is the option to configure the transponders according to the following features:

- + card number
- + side code
- + max. card amount
- + several price lists
- + subsidy levels
- + much more

Vensells CL Card

The RFID Mifare Classic 1K card has a range of up to 10 cm and uses the high-frequency range. It is powered by the inductive magnetic field of the read/write units, so no direct power connection is required.

Possible card types:

- + employee cards
- + free sales cards
- + test cards
- + one-time value cards
- + token cards

Standard delivery blank white, with number printed on one side (consecutive), individual printing possible

From Vensells CL Premium:

- + guest cards
- + cost centre cards

Vensells CL Key

The RFID Mifare Classic 1K keys are handy and fit in any trouser pocket or handbag. We offer these in a basic and a premium version. These differ in their design and in the customisation options.

Possible key types:

- + employee keys
- + free sales keys
- + test keys
- + one-time value keys
- + token keys

Key ,Basic'

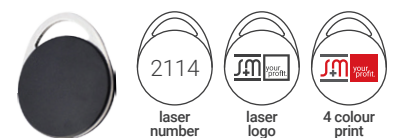

Standard delivery with number printed on one side (consecutive), in 3 colours

From Vensells CL Premium:

- + guest keys
- + cost centre keys

Key ,Premium'

Standard delivery unprinted, in 11 colours (RAL/ Pantone), individual labelling with consecutive number and your logo possible
